

Report on 2016 Boston Charity Concert Grant

- JB Line, Inc. -

JB Line, Inc. ([Japanese Bostonians Support Line](#)) is the 501(c)(3) nonprofit organization to promote the physical and mental well-being of Japanese immigrants and their families living in New England.

We provide services to clients primarily through a 24hour 7days hotline. When the problems cannot be solved over the phone, we meet callers in person to discuss how to solve the problems and offer the support. Our Domestic Violence, Divorce, Hague Convention, and Custody program has been funded by the Consulate General of Japan in Boston. Support groups for seniors and women are very active. We occasionally hold various educational seminars in the community.

Thanks to the fund by Charity Concert in 2016, JB Line was able to create the English brochures of our services. People in the community would be able to learn about our organization and the support. Thank you!
